

FREE Sofa Bed to Good Home

Built in the late Sixties to survive a nuclear war, this has been in my family since it was purchased. It is almost indestructible. Perfect for a kid's play room.

Covered with green vinyl. Only has minor cuts in the upholstery. It has

a denim cover that can be used over it (see below). The double sized mattress has been replaced recently.

Will deliver locally if it gets it out of my house faster. I have new furniture coming.
